Occupational Therapy

**Corrigan Goldsmith, OTR/L
VNA Occupational Therapist**

Education

- Master of Occupational Therapy
St. Ambrose University
- B.A. Psychology
St. Ambrose University

*“As an Occupational Therapist,
I am always striving to help individuals
live **as independently as possible** for **as long
as possible**... Occupational Therapy is here to
help people get back to their lives,
and live them fully. ”*

Corrigan Goldsmith earned her Master’s degree in Occupation Therapy and a BA in Psychology from St. Ambrose University in Davenport, Iowa. She has served patients in inpatient rehabilitation for five years, and in the home for two years.

Corrigan has experience and expertise in dealing with brain injury, assisting patients getting stronger after a fall, and modifying home environments for improved function. All of these skills help patients age in place in a setting that is safe, comfortable, and familiar.

The Visiting Nurse Association of Johnson County has provided healthcare services to improve the health and the lives of individuals and the community since 1949. We bring skilled care and professional therapy home, resulting in increased independence and reduced hospital stays. When you need expert home care, remember VNA.
